Please note that the distances in the far right column are estimates. They are based on the average caloric burn for a person who weighs 150 pounds. Your distance in miles may be lesser or greater depending on your weight and the intensity of your exercise. Check out our article in the Walk Across Tennessee News on how to monitor intensity from American Council of Exercise.

1. To count any exercise you do for the competition, the exercise must be intentional and consistent for at least 15— 20 minutes. For example, if you start out walking for 7 minutes and then stop to drive to the store, then later do some light housework for 10 minutes, this should not count. While it is helpful to get any amount of exercise, we are trying to make this competition as fair to everyone as possible.

- 2. Only registered team members can participate. Team members cannot be "switched out" throughout the contest without the approval of UT Extension office. Teams that break this rule will be disgualified.
- 4. Above all, be as honest as possible. Try to not "fudge" your mileage. We want this to be a fair competition.
- 5. If 4 or more people on the team are primarily running or bicycling, then the team is limited to 4 people to make the competition more fair to teams who are walking or doing other exercises.
